

JULY SERIES, 7/9/2011

A clearing sky brought a light NW breeze on the Great Harbor. The first course of the day was a W, LG,W, L course. Most of the fleet was very late for the start and the rich kept getting richer as they sailed into better pressure going up the beat. Gamble hit the grand slam on the first beat and never looked back with a huge margin by the finish. The breeze freshened to 10-12 at the start of the second race building to 15 by the finish. A mid-course gate was set on a W, L, W course that got stretched a bit over the first race. The racing was extremely tight and the gate prevented boat from gaining too much leverage on one side over the other. Gambler won a shoot out with Mischief and Gosling. Satin Doll was ready to capitalize if anyone made a mistake. John Henry is now committed to the front of his boat as long as nobody swears at the crew.

Bardy Roberts with Tucker Charles did an amazing job on the mark boat on gates and offsets while Bryan Peugh and Ilka Hadlock assisted Sue and Franny Charles on the Shearwater. Video clips will be posted on youtube this evening and a link will be forthcoming. Fred has promised to provide a big screen for the Fleet house for post race viewing pleasure followed by storytelling at the Red Bird.
